Change by a Global Marshall Plan in the 21st Century

"We need a Global Marshall Plan to save the world's environment and give billions of dispossessed people the tools needed to participate in the marketplace in a rational way ..."

Al Gore

Dear Mr. Obama,

the Global Marshall Plan Initiative welcomes you in Germany with great joy and hope. We aim at a more balanced world anchored in the philosophy of Global Ethic. We are oriented towards global justice, sustainability and peace by peaceful means and argue since 2003 for a CHANGE to a better Global Governance. Particularly we are engaged for a world wide Ecological Social Market Economy in the 21st Century in responsibility for future generations.

As you know, the Global Marshall Plan Initiative is also active in your country and in contact with you. We have included the books "Towards a World in Balance" / "European Hope" (so-called TWINS) to give you more background information. We hope this material is of use for you in following through your important agenda.

With best wishes for your Changing the World
